

HOW WOULD YOU FEEL IF
YOUR **"HOME TAX"** DOUBLED?

Betrayed

Wisconsin's property taxes are the 8th highest in America, and now some state leaders want to double the "Home Tax" you pay when a home is sold.

In other words, the "Home Tax" will cost an additional \$492 for the average priced home in Wisconsin. That's a 100% increase, or \$984 per home when it changes hands.

The "Home Tax" occurs when any home, farm or commercial property is sold and the ownership change is recorded (the Real Estate Transfer Tax). We call this double taxation and it's unfair. This is the wrong time to slap an increase on homeowners, and could have a serious impact for buyers seeking affordable housing.

If you agree and feel "Taxed To The Max," call your legislators and tell them you feel that doubling our "Home Tax" is double taxation and is double trouble for all property owners in Wisconsin.

To tell your Legislators how you feel,
contact them through the Legislative Hotline:
